Navigating Concerns at LKDSB

The Lambton Kent District School Board is committed to providing high-quality learning opportunities for all students. Sometimes, concerns may arise due to misunderstandings, communication challenges, or situations that require further attention. When this happens, working together respectfully is the best way to reach a resolution. If you have a concern related to a school matter, the following steps should be followed:

1. Speak with your child's teacher.
2. Speak with your child's principal.
3. Speak with the Administrative Assistant to the Superintendent of your school.
4. Speak with your school's Superintendent.
5. Speak with the Chief Executive Officer of the Board.
